**APPROVAL, IMPLEMENTATION, AND PROMULGATION
SOUTH CAROLINA EARTHQUAKE PLAN**

The 2016 South Carolina Earthquake Plan was developed for use by State government officials to ensure mitigation and preparedness, appropriate, response and timely recovery from earthquake events that may affect the State of South Carolina. This plan is predicated upon the concept that emergency operations will begin at the lowest level of government most appropriate to provide effective response. This Plan augments the South Carolina Emergency Operations Plan (SCEOP).

This publication, dated September 2016, supersedes the South Carolina Earthquake Plan dated December 2014 which should be discarded.

I delegate authority to the following SCEMD personnel to make specific modifications to the plan and without my signature.

1. Scott Brown, Chief of Preparedness
2. David Harbison, Natural Hazards Plans Manager
3. Jessica Stumpf, Earthquake Program Manager

This plan is effective upon receipt and will be activated by the Director, South Carolina Emergency Management Division, and when directed by the Governor of South Carolina.
