

ANNEX I TO HURRICANE PLAN
GENERAL POPULATION SHELTER MANAGEMENT

I. GENERAL

- A. General populations shelter management includes:
- Estimating the number of evacuees who may require shelter
 - Planning shelter space
 - Inspecting facilities on a recurring basis
 - Planning, anticipating and coordinating staffing
 - Coordinating resources
 - Providing sustainment and logistical support
 - Addressing functional or unique individual medical needs
 - Consistent and accurate reporting and communication
 - Identifying and providing public information on pet shelter facilities within reasonable proximity to each shelter
 - Coordinating shelter openings and closing in close coordination with State, county and local officials
- B. Hurricane evacuation shelter requirements are calculated using a percent of the vulnerable population. Conglomerate counties identify facilities with adequate space to fulfill these sheltering requirements.
- C. Identified facilities must be immediately accessible and under the purview of government authority to open, operate and close.
- D. Written agreements are required between county and all non-government entities prior to inclusion in this plan.

II. CONCEPT OF THE OPERATION

- A. ESF-6 (Mass Care) is the lead Emergency Support Function (ESF) for managing the general population and special medical needs shelter plans and execution.
- B. SC Department of Social Services (DSS) is the lead state agency for managing the general population shelter plan and general population shelter execution.
- C. The American Red Cross (Red Cross) surveys, opens, operates, transitions and closes general population shelters in coordination with DSS and County Emergency Management.
- D. SC Department of Health and Environmental Control (DHEC) is the lead state agency for managing the special medical needs shelter plan and special medical needs shelter execution.

-
- E. General Population Shelter coordination
1. County Emergency Management, SCEMD, and the American Red Cross (Red Cross) coordinate General Population locations.
 2. Shelter staffing management, reporting, and communications are coordinated between the DSS, the Department of Health and Human Services (DHHS), the Department of Health and Environmental Control (DHEC) and the Red Cross.
- F. General Population Shelter Identification and Grouping
1. To coordinate shelter openings, public general population hurricane evacuation shelters are identified either as “grouped” or “Reserve” shelters.
 2. Grouped shelters are identified in sets designed for simultaneous opening. These shelters are arranged along each evacuation route, and generally are larger capacity shelters, many of which have greater functional needs accessibility and a backup power source.
 3. Grouped Shelters are designated North 1 (N1) to North 5 (N5), Central 1 (C1) to Central 5 (C5), South 1 (S1) to South 5 (S5), and Western 1 (W1) to Western 4 (W4).
 4. Hurricane Shelters identified as a group 5 (i.e. – N5, C5, S5) are designated for use during Re-Entry Operations and are not intended to be used during the initial evacuations unless dictated by circumstance.
 5. Hurricane shelters that are not incorporated into “groups” are designated as “Reserve” shelters. These shelters can be opened and closed individually to supplement groups or to meet local demand. They are intended to only be used in extraordinary circumstances.
 6. Grouped shelters depicted in this plan may be individually adjusted from one group to another based on need, circumstance, and specific projected characteristics of a given storm. For example, a specific shelter depicted as a N5 may be opened with the N1 group if necessary and that location is not at risk to storm affects.
- G. Shelter Survey Process.
1. The Red Cross surveys general population shelters to determine capacity. Shelters in groups should be updated for POC’s and any changes yearly, Shelters in groups should be surveyed no less than every four years or upon change or request; other shelters in this plan are surveyed no less than once every four years.

2. Shelters in the following counties are surveyed per American Red Cross 4496/ Hurricane standards: Jasper, Hampton, Allendale, Beaufort, Colleton, Bamberg, Charleston, Dorchester, Berkeley, Orangeburg, Georgetown, Williamsburg, Clarendon, Horry, Marion, Florence, Darlington, Marlboro and Dillon Counties. All shelters in counties should be surveyed under normal standards/conditions, to include those surveyed per American Red Cross 4496 to assist in consolidation and re-entry planning and operations.

H. Opening of General Population Hurricane Shelters

1. When an evacuation begins, ESF-6 (Mass Care) will open Group 1 shelters.
2. ESF-6 (Mass Care) will sequence grouped openings, Group 1 opening before Group 2, Group 2 before Group 3.
3. ESF-6 (Mass Care), in coordination with the SEOC and local emergency management, has the authority to adjust the openings of shelters and the coordination of opening to meet the requirements of the situation and the requirements of the evacuation.
4. Shelter opening time is four (4) hours after the decision to open shelters is made.
5. Western Conglomerate
 - a. The Western Conglomerate acts as the state reserve in a position of safety beyond the Coastal Conglomerates.
6. ESF-6 (Mass Care) will open additional groups within the conglomerate based on “percentage fill” and “time.” Generally, 75% fill of any group is the trigger to open the next group. If population increases are slow or significantly slowing, this decision may be delayed to a higher percent fill.

I. General Shelter Operations

1. Red Cross managed shelters are open to the public without discrimination of any kind.
2. Red Cross will not deter evacuees from leaving the shelter. However, authority to authorize and allow residents to return to an area resides with the local government.
3. Red Cross will keep shelters open or on standby as long as a threat remains to South Carolina.

J. Closing of General Population Shelters

1. The decision to close shelters is based on many factors including the number of evacuees in the shelter, returning destination of the evacuees, location of other nearby shelters, available transportation, and housing options.
2. Before shelters are closed, the County Emergency Management Director and the SEOC Operations will determine that a threat no longer exists.
3. The identification and recommendation on which shelters to close or consolidate are based on coordination between the SEOC, County Emergency Management, and ESF-6 (Mass Care) in conjunction with the Red Cross Disaster Relief Operational Headquarters (DRO HQ).
4. The Red Cross DRO Headquarters will notify ESF-6 (Mass Care) when shelters are officially closed. ESF-6 (Mass Care) in conjunction with the SEOC Public Information Officer will inform the SEOC staff and Public Information Phone System (PIPS) Manager once a shelter is closed.
5. This process does not apply to Special Medical Needs Shelters (SMNS) (see Annex J – Special Medical Needs Shelter Management) or shelters managed by other agencies or organizations.

K. Public Announcement of General Population Shelter Openings/Closings

1. ESF 15 (Public Information) will coordinate public announcements regarding general population public shelters and publish the information by via multiple means and sources, including local broadcasts, Joint Information Center releases, the Public Information Phone System (PIPS) and the Red Cross.
2. The public announcement will include each shelter name, location, the address, associated route and exit, and shelter(s) opening time.

3. Shelters may open before the announced time. Once a shelter is reported at 90% capacity or above, ESF-6 (Mass Care) will coordinate with ESF-15 (Public Information) to no longer include the shelter in public announcements as “open.”
4. ESF-15 (Public Information) will provide announcements to major media outlets from State and County EOCs.

L. Public Sheltering Requirements

1. Sheltering Estimates

- a. To plan shelter space for evacuees, the vulnerable population for each conglomerate was analyzed and used to calculate shelter requirements. The vulnerable population consists of all residents and tourists within a Category 4/5-storm surge inundation area and residents living in structures susceptible to wind damage within each conglomerate.
- b. The Army Corps of Engineers determined the vulnerable population shelter requirements during the Hurricane Evacuation Study (HES).
- c. The total population in the Coastal Conglomerates requiring sheltering is continually changing. This change is due to the increasing coastal population and the increase in the numbers of those living in vulnerable structures.

2. Shelter Requirements

- a. Shelters in Jasper, Hampton, Allendale, Beaufort, Colleton, Bamberg, Charleston, Dorchester, Berkeley, Orangeburg, Georgetown, Williamsburg, Clarendon, Horry, Marion, Florence, Darlington, Marlboro and Dillon Counties. must be inspected by Red Cross and meet the requirements of Red Cross 4496 to be designated as a Hurricane Shelter.
- b. The State, in conjunction with Red Cross, determined the emergency capacity using 15 sq ft/person for hurricane evacuation shelters.
- c. For shelter operation extending beyond 72 hours, 40 sq. ft. per person is allocated and a population shift may be required.

M. Special Medical Needs Shelter Operation (See Annex J)

III. HURRICANE EVACUATION SHELTER TABLES

A. Grouped and Reserve shelters within SC provide a shelter capacity of 168,799

B. The following table shows the three (3) Coastal Conglomerates’ total estimated vulnerable population and shelter requirements:

SC Vulnerable Population & Sheltering Requirements

II. General

- A. Groups are designated as “1”, “2”, “3” & “4”. Re-Entry Groups are designated as “5”. Reserve shelters are designated with an “R”.
- B. RTE designates associated evacuation route.

- C. “G” denotes the presence of a Generator Transfer Switch installed to facilitate the connection of a service generator in an emergency, and “F” designates a shelter with above average functional needs accessibility.
