

Food and Water Availability (ESF-6)

1. Where can I go to get food and water for my family?

Food may be available at Points of Distribution Sites (PODS). View EMCOP map to view the locations of opened PODS. The commodities at a PODS are for the citizens/residents of that county. You will be asked to show identification with street address.

Meals Ready to Eat (MRE) and bottled water are available at PODS. You can only visit a POD once a day. Meals are provided per family. You are unable to pick up meals for any other family.

2. If PODS are not opened in a county, there may mobile feeding sites sponsored by Salvation Army and ARC. Check with ESFs to determine if there are any mobile feeding facilities in the area.

3. Last resort is to go to an opened **shelter** for food.

4. If there are several requests for food and water in an area and there is no POD or mobile feeding sites, alert ESF 6 on the need in the area.
