

SCEMD

G300 Intermediate Incident Command System (ICS)

Course Description:

This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS). The course expands upon information covered in the ICS -100 and ICS -200 courses. Topics covered include: How NIMS Command and Management component supports the management of expanding incidents, Incident/event management process for supervisor and expanding incidents as prescribed by the ICS, Implementing the incident management process on a simulated Type 3 incident, and developing an Incident Action Plan for a simulated incident.

Target Audience:

- Personnel expected to perform in a management capacity in an expanding incident that may require a higher level of NIMS/ICS training from the following disciplines/services:
- Fire Service
- Emergency Medical Services (EMS)
- Hazardous Materials (HazMat)
- Law Enforcement (LE)
- Public Health (PH)
- Public Works (PW)
- Emergency Management (EM)
- Government administrative
- Private sector and military
- County, state, and federal agency personnel who may assume a supervisory role in expanding incidents or Type 3 incidents.
