SOUTH CAROLINA OPERATIONAL RADIOLOGICAL EMERGENCY RESPONSE PLAN

LETTER OF AUTHORITY

The South Carolina Operational Radiological Emergency Response Plan (SCORERP) establishes policies and procedures for preparedness and emergency response to fixed nuclear facility incidents that may occur in or adjacent to the State. It is an integral part of the South Carolina Emergency Operations Plan (SCEOP) and prescribes planning objectives, tasks and responsibilities to the departments and agencies of State and local governments in accordance with applicable statutes.

The SCORERP was developed in accordance with the U.S. Nuclear Regulatory Commission's (NRC) and the Federal Emergency Management Agency's (FEMA) joint guidance (i.e. NUREG-0654 FEMA-REP-1, REV. 1, Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants, dated November, 1980).

This publication, dated May 2017, supersedes the SCORERP dated December 2012 (Revised as of January 2014) which should be discarded.

I delegate authority to the following South Carolina Emergency Management Division (SCEMD) personnel to make specific modifications to the plan without my signature.

1. Steven Batson, Chief of Staff
2. Scott Brown, Chief of Preparedness
3. Nathan Nienhius, Fixed Nuclear Facility Manager

The SCORERP has been reviewed and updated in accordance with the provisions of State Regulation 58-101. This plan is effective upon receipt and will be activated by the Director, SCEMD, when directed by the Governor of South Carolina.

A handwritten signature in black ink, appearing to read "K. Stenson".

Kim Stenson
