- G. In coordination with and support of the counties, ESF-13 will assess the situation (pre-event and post-event), and in coordination with local emergency management officials, develop strategies to respond to the emergency, including the deployment of additional federal, state, and local law enforcement assets and resources as needed.

2. The local sheriff or chief of police is responsible for law enforcement activities within his/her local jurisdiction; however, the above resources are available to maintain peace and good order as needed based upon availability.
3. The local law enforcement agency in command will retain direction and control.
4. When state law enforcement personnel and equipment are committed, SLED will assign a member to coordinate state activities with the local law enforcement Incident Commander.
5. SLED will coordinate directly with the local law enforcement agency in control to coordinate activities for all other state law enforcement agencies involved as it relates to general law enforcement duties.
6. State law enforcement resources will continue to be regulated through the normal chain of command but will be responsive to ESF-13, in conjunction with the SLED Incident Commander.
